

Installation Services

Streamline the implementation and operation of your new equipment with STERIS Installation Services.

Our specially trained technicians provide installation support that reduces startup risks, ensures efficient integration and optimizes equipment performance from the start.

With both full and partial installation services available, STERIS offers customized support to meet your specific needs.

Full Installation Service

A Full Installation Service includes all labor and materials necessary for:

SET IN PLACE

Uncrating, inspection, assembly and positioning of your equipment

COMPREHENSIVE INSTALLATION

Complete utility connections and setup to OEM specifications

START UP

Thorough testing and verification of all operational cycles and systems

Partial Installation Service

Customize the specific services you need, including:

SET IN PLACE

Equipment uncrating, inspection and positioning

FINAL CONNECTIONS

Utility hookups and connections

START UP

Operational testing and system verification
